I am an avid reader. My go to genres include fiction and thriller. My favourite author is Mathew Reilly.

Neha Jain

I have always enjoyed reading because there's so many different things you can gain from books. I mostly like reading fiction books because the outcomes and possibilities of them are endless.

I'm honestly not a reader. I kind of enjoy reading though only when I catch hold of the right book. I feel like I always rush into finding a new book and I never have time to really think about what I want.

Generally, my reading isn't as frequent as I would like it to be. I do enjoy reading fairy tales.
