# BookXchange

-The go to stop for circulating books-

Problem Statement

While some of us have cupboards filled with unused books, there are people struggling to buy basic books due to their exorbitant prices.

Troubled by the harsh reality, we decided to come up with our own platform to facilitate hassle free book exchange.
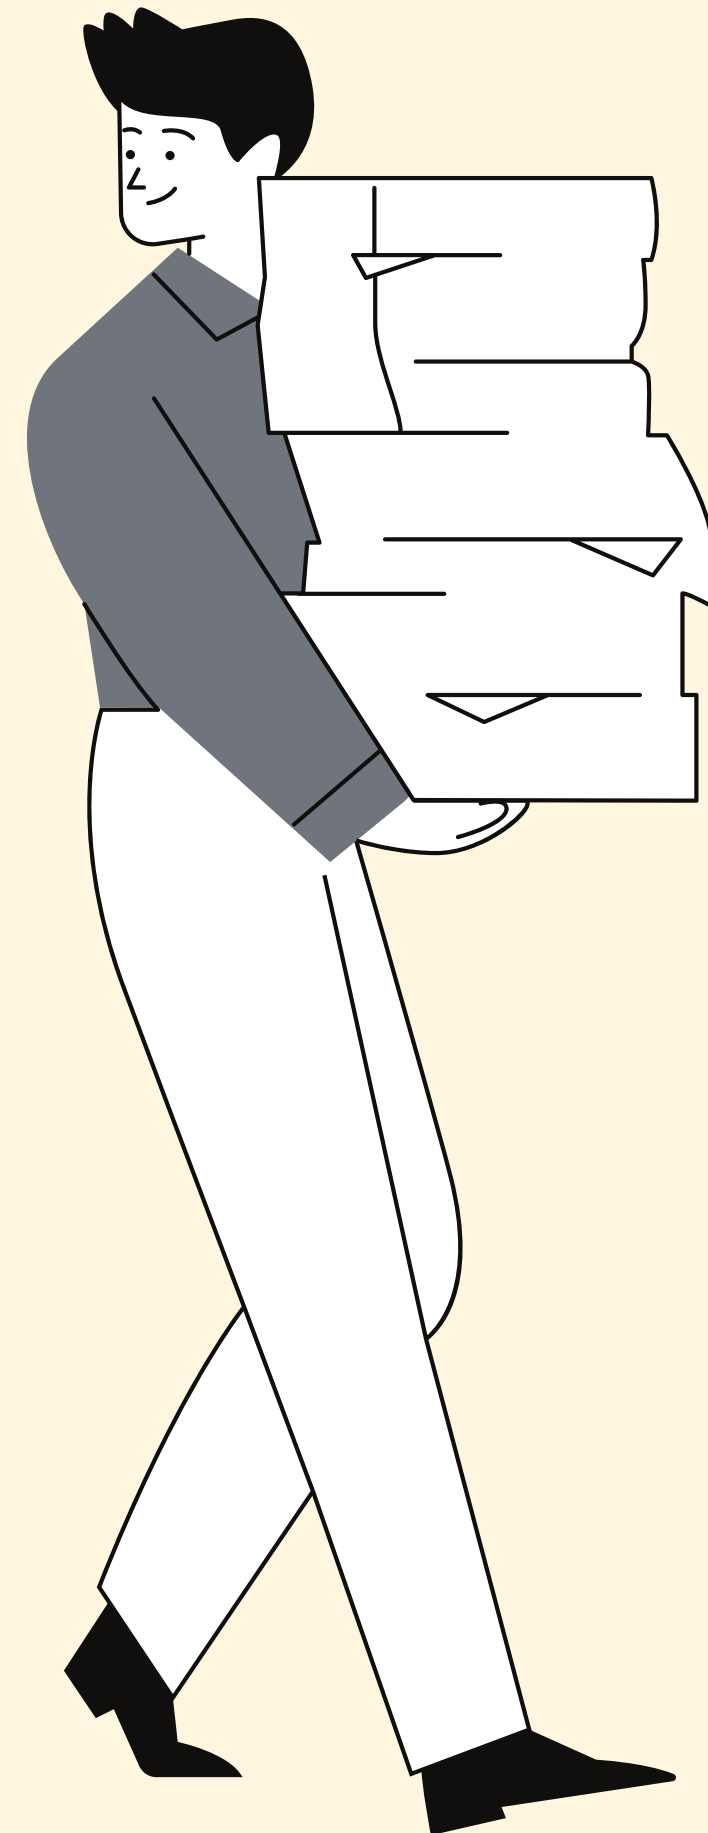

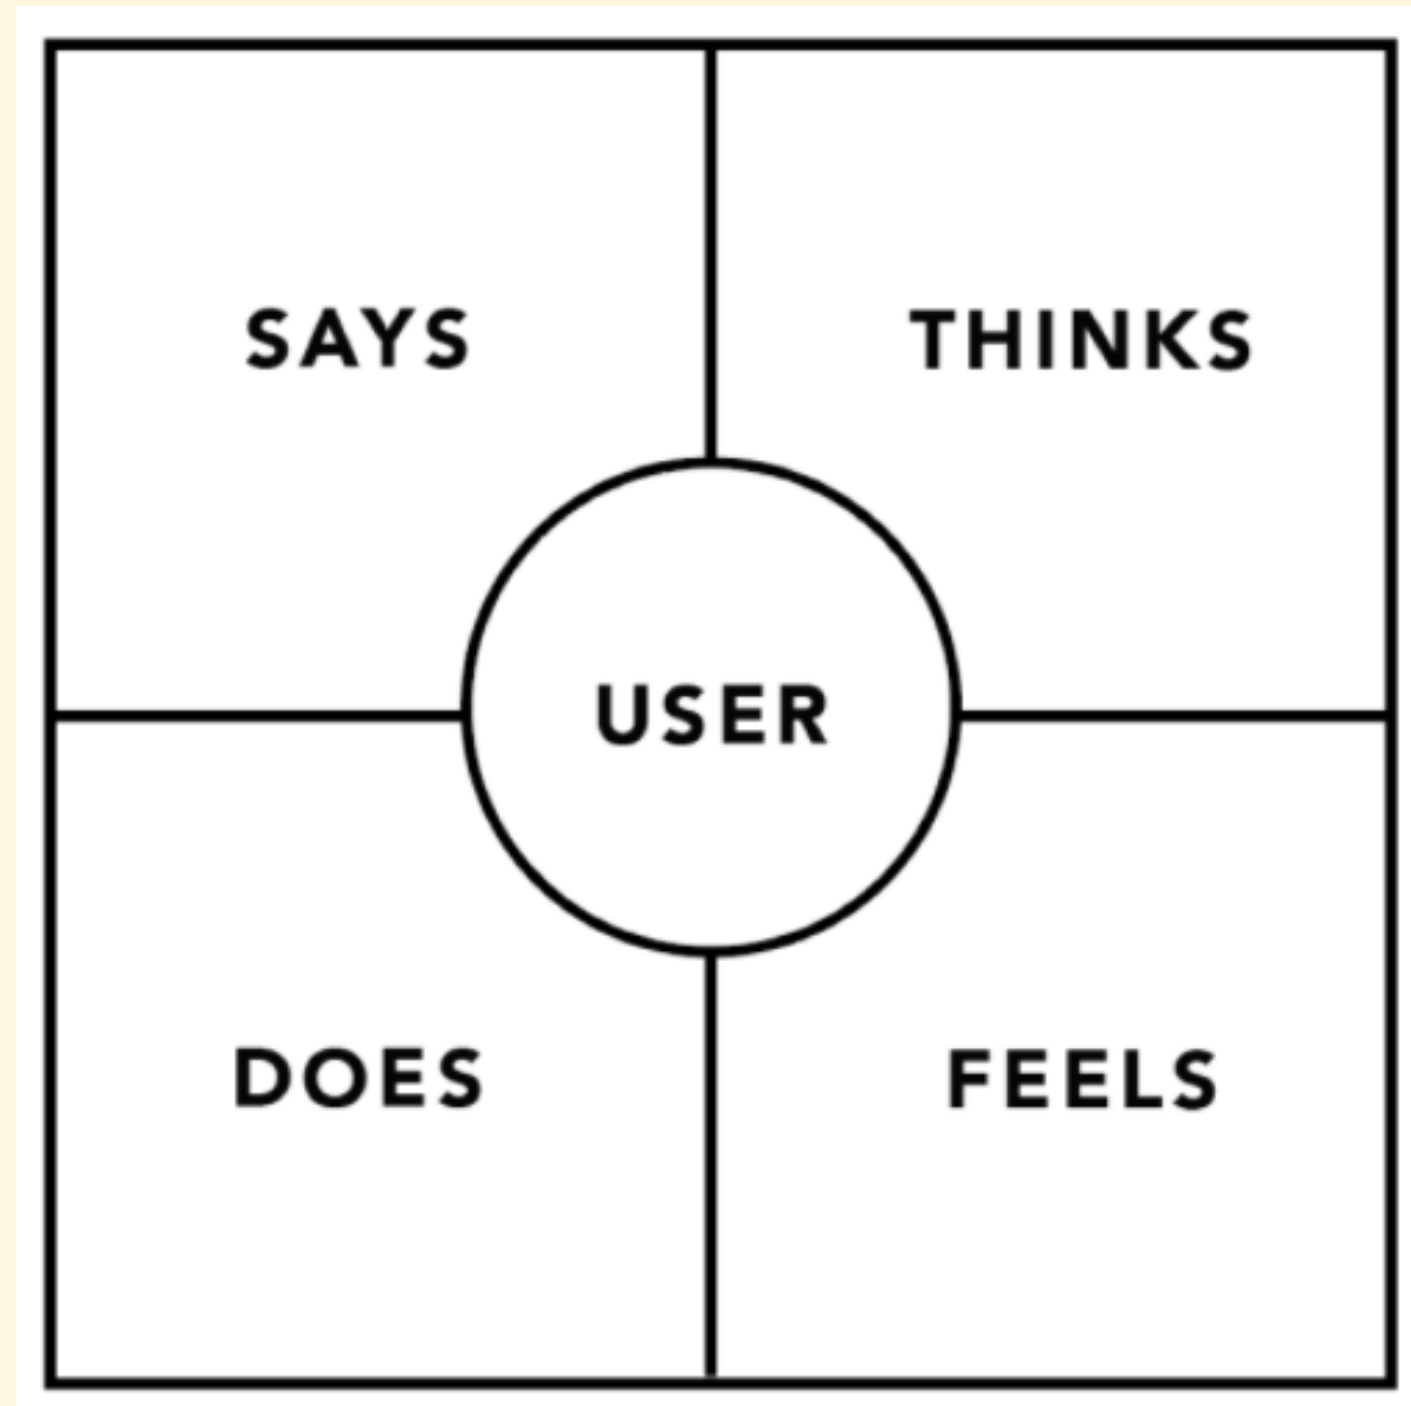

This platform allows users to put up books for donation. Interested users can then avail these books free of cost.

EMPATHY MAP
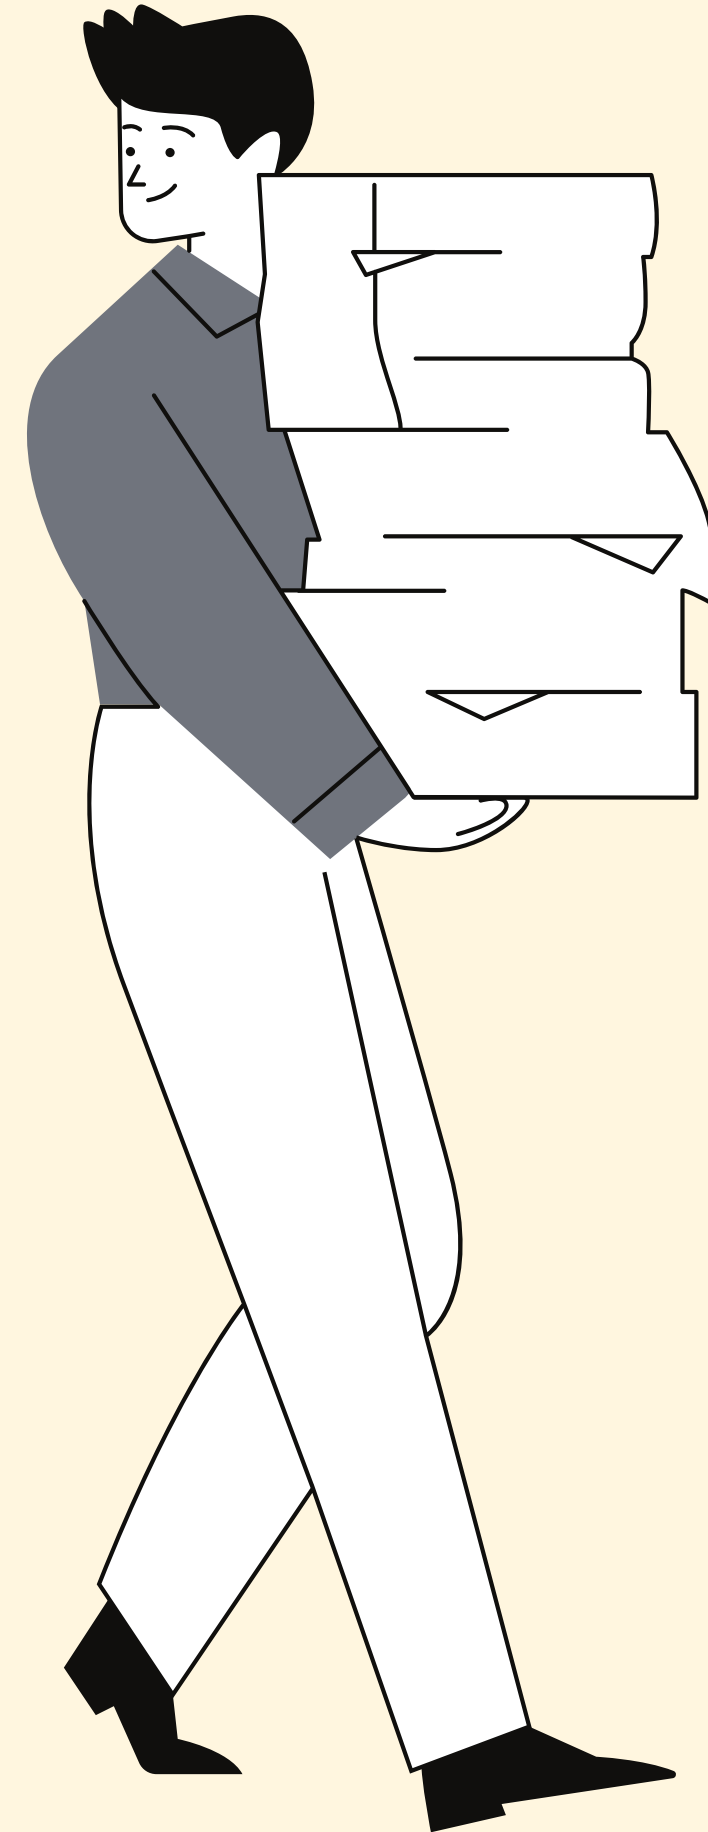

## SAYS

I use this product when I want to get rid of my old books.

I use this product when I want books specific to my institution.

This product is useful when I want to acquire a book without purchasing it.

This product helps me when I do not want to wait for a long delivery time.

THINKS

Will the book be in good condition?

Will the book I want be available?

Will I get the book on time?

I hope the book donor is near my location.

Is this platform trustworthy?

USER

DOES

Checks platform for books.

Checks for donor who is nearest to them.

Messages donor for enquiry

Updates platform with books to donate.

Rates the book donor based on book quality and experience

FEELS

Excited about helping a student in need

Looking forward to connecting with seniors

Anxious about the book quality

Worried about book availability.

Excited about having to pay no money for the book
